# The Mill

access  
to better Outcomes

Advancing meaningful innovation is one of the ways we make a difference at Stryker. The Mill is an innovative electronic bone mill designed to enable uniform and consistent bone yield.

# The Mill

**access**  
to better Outcomes

- Blades are designed for a milled bone yield for better consistency and uniformity
- Multiple blade sizes allow for customized bone granulation for a wider range of procedures
- Preassembled blades allow for maximum efficiency during set-up and operation

**Mill Instrument Driver**  
Independent console for use with pneumatic system

**CORE Console**  
Powers multiple instruments simultaneously including The Mill

- Single pass cutting action enables uniform particulate size with low temperature bone exposure
- Collection tray minimizes bone loss through mill cycle
- The CORE console enables simultaneous use of The Mill, Stryker High Speed Drills, Saws and other micro powered instrumentation with precise compatibility

**Fine Blade**  
**5400-702-000**  
Bone particulate up to 3.2mm

**Medium Blade**  
**5400-701-000**  
Bone particulate up to 5.0mm

**Coarse Blade**  
**5400-703-000**  
Bone particulate up to 8.0mm
