NAV3
The Next Generation of Surgical Navigation Platforms
The NAV3 is Stryker’s next generation of surgical navigation platforms. With its sleek design and footprint, this mobile unit is fully equipped to bring the ultimate navigation experience, while integrating seamlessly into the operating room. The NAV3 provides enhanced visualization and revolutionizes the user experience, while delivering the accuracy that Stryker is known for.

The Difference is Clear

Now Navigating in HD

The NAV3 is Stryker’s next generation of surgical navigation platforms. With its sleek design and footprint, this mobile unit is fully equipped to bring the ultimate navigation experience, while integrating seamlessly into the operating room. The NAV3 provides enhanced visualization and revolutionizes the user experience, while delivering the accuracy that Stryker is known for.
Stryker’s proprietary tracking technology has produced the most accurate optical navigation camera on the market.1 When that industry-leading accuracy is combined with Stryker Navigation’s Smart Instruments, the result is absolute control, where the surgeon is able to completely control the software from the sterile field.

Features & Benefits

- Stryker’s proprietary navigation camera, with active technology
- 24” Full HD surgeon monitor
- Full HD touchpad user interface with RFID-reader
- Stryker industrial PC with Intel® Core™ i5 processor
